ADVISORY

TO : ALL WILDLIFE PERMITTEES/APPLICANTS

SUBJECT : ADOPTION AND USE OF THE ONLINE WILDLIFE PERMITTING AND MANAGEMENT SYSTEM (OWPMS) FOR LOCAL TRANSPORT PERMIT (LTP) APPLICATIONS

In line with the continuing digital transformation initiatives of DENR-PENRO Marinduque, and pursuant to the approved PENRO Office Order No. 26-082, entitled "Policy Guidelines on the Implementation and Adoption of the Online Wildlife Permitting and Management System (OWPMS)," the OWPMS is an internal DENR-PENRO Marinduque electronic service and workflow purpose and shall operate consistently with DENR-wide systems, policies, standards, and platforms prescribed by competent DENR authorities and the DICT, where applicable..

Effective October 5, 2026, all wildlife permittees and applicants are advised to use the OWPMS for covered applications and related transactions. The System may be accessed through:

https://owpms.penromarinduque.gov.ph/

The OWPMS provides an online application portal, inspection and verification functions, multi-level review and approval, electronic-signature workflow, payment monitoring, notifications, audit trail, reporting, and permit release/download facilities.

Accordingly, all Wildlife Permittees/Applicants are advised to observe the following:

1. **Registration and Account Creation.** Permittees/Applicants shall create and maintain their own OWPMS account using accurate and current information.

2. **Online Application.** Covered Local Transport Permit (LTP) applications shall be submitted through the OWPMS, together with the required supporting documents and information.

3. **Accuracy and Authenticity of Documents.** Permittees/Applicants shall ensure that all information, declarations, and documents submitted through the System are complete, accurate, valid, and authentic.

4. **Monitoring of Application Status.** Permittees/Applicants shall regularly check their OWPMS account and notifications for application status, requests for correction or additional requirements, inspection schedules, payment instructions, approval, and permit release.

5. **Payment of Applicable Fees.** Where fees and charges are applicable, payment shall be made only through authorized DENR payment channels and in accordance with the instructions provided through the System.

6. **Inspection and Verification.** Permittees/Applicants shall comply with inspection, verification, and other technical requirements prescribed under applicable wildlife laws, regulations, and DENR procedures.

7. **Electronic Signatures.** Where electronic signing is applicable, the permittee/applicant shall use only his/her authorized account and comply with the applicable DENR policy on electronic and digital signatures.

8. **Permit Release and Download.** Approved LTPs and other documents made available through the OWPMS may be downloaded by the permittee/applicant through the System, subject to completion of all required processing and approval steps.

9. **Account Security and Data Privacy.** Permittees/Applicants shall keep account credentials confidential and shall not share usernames, passwords, or authentication credentials. Personal information shall be processed in accordance with applicable data privacy requirements. The implementation of the OWMPS shall be subject to applicable privacy governance requirements of the DENR, including designation of responsible privacy personnel, conduct of a Privacy Impact Assessment where required, implementation of the appropriate organizational, physical and technical safeguards, management of data-subject rights, breach management and notification procedure, and retention and disposal in accordance with applicable records-retention requirements.

10. **Compliance with Permit Conditions.** The adoption of an online system does not dispense with any substantive requirement, condition, inspection, authorization, or regulatory obligation prescribed by law, applicable DENR issuances, or the issued permit.

Please be informed that the Online Wildlife Permitting and Management System (OWPMS) of DENR-PENRO Marinduque is hereby IMPLEMENTED AND ADOPTED FOR OFFICIAL USE effective October 5, 2026.

During the transition and whenever the System is temporarily unavailable, permittees/applicants may follow authorized contingency or hybrid procedures as may be prescribed by DENR-PENRO Marinduque. Transactions processed through an authorized alternative procedure shall, when practicable, be subsequently recorded or reconciled in the OWPMS.

For concerns, technical assistance, or clarification regarding the use of the OWPMS, permittees/applicants may coordinate with the DENR-PENRO Marinduque Regulation and Permitting Section or designated OWPMS support personnel.

For information, guidance, and strict compliance.
